DETAILED ACTION

Election/Restrictions

Claims 2, 5-12, 14-17, 20, 23-30 and 32-35 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 11/24/04.

Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: See collapsible interlocking member (claim 1) and retaining structure. Indicate by reference numeral.

The disclosure is objected to because of the following informalities: Reference numerals 110 and 120 have been both used to indicate a slide cap.

Appropriate correction is required.

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: collapsible interlocking member and retaining structure. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application.

Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 13, 18, 19, 21, 31 and 36-⁴⁰~~39~~ are rejected under 35 U.S.C. 102(b) as being anticipated by Castillo et al U.S Pat. No. 5,336,199.

Castillo discloses a safety needle comprising: a needle with a sharp end (14); a needle shield (fig. 6) comprising: collapsible interlocking member (28, 30, 32, 34, 36, 38); a spring (40); a releasable latch (42, 44); a closing structure (26); as to claim 3, (16); as to claim 13, (fig. 6); as to claim 18, (fig. 6); as to claims 19, 21, 31, (see above rejections); as to claims 37-⁴⁰~~39~~, (see above rejections and summary of the invention).

Allowable Subject Matter

Claims 4 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
